

2017 IHSA Bowling State Final Oil Pattern:

Per the recommendation from the IHSA Bowling Advisory Committee Kegel has developed the oil pattern; independent of the host center. The pattern will not be posted prior to the State Final. The shot will be put out for the first time on Thursday for the practice round so that all bowlers have the same opportunity to practice on the pattern.

A final reminder, in order for any bowler to participate in the practice round, their certified, school approved coach must be with them from start to finish. A parent representative, private coach, sibling, etc. would not be allowed to coach them on Thursday as this is the official practice round for the State Finals.

Thank you!
