Baseball Seeding Meeting Information

Coaches are expected to take part in the seeding process with the highest standard of integrity and to ensure fairness and equity for all participants. Schools must enter all game schedules and results into Maxpreps.com to be counted toward season summary totals. **The head coach from each school should complete the Season Summary Form and will be allowed to vote for the seeds.** The Season Summary Form can be found in the Activity Tracker section of the IHSAA Schools Center under the 'Required Data Forms' column for Baseball.

Coaches will not be allowed to vote for their own team. Coaches will determine their seeds based on these factors:

- Head-to-head victories against teams assigned to the first level tournament
- Record against common opponents
- The total win/loss record of schools in the tournament
- Team evaluation based on narrative provided by coaches

These factors have not been prioritized. The IHSAA reserves the right to review all submitted seeds and throw out ballots and adjust the seeds accordingly.

If schools tie for a seed, the IHSAA will use the following criteria to break the tie:

- Head-to-head competition between the tied schools
- Random draw (if more than 2 schools are tied for a seed)
- Coin flip (if 2 schools are tied for a seed and head-to-head competition can't break the tie)

Schools will be able to access all the seeds made by other schools assigned to their seeding meeting prior to the seeds being posted on-line through the IHSAA website. Tournament assignments will then be posted by the end of the week during which seeding occurs. The timetable that follows shows the dates for the 2023-24 school term.

IHSA/MaxPreps Partnership FAQ

MaxPreps is the “Official Statistician and Media Partner” for the Illinois High School Association. The IHSA partnership with MaxPreps provides great opportunities to promote your team and players and enables the IHSA to efficiently manage regular-season game results for the IHSA Score Zone, post-season seeding summary forms, statistical leaderboards, state records, media publications, and more. In order to accurately manage these initiatives, all IHSA coaches are required to enter their scores into MaxPreps after each game. They are encouraged to enter statistics to be included on all IHSA stats leaderboards.

1. What do coaches need to do? Coaches need to enter their rosters and schedules at the start of each season, report scores immediately after each game and enter statistics to appear on statewide stats leaderboards.

2. What do Athletic Directors need to do? Athletic Directors need to communicate with coaches to keep their scores and other team information updated. While MaxPreps recommends coaches are responsible for their own team information, Athletic Directors can also control every single team page from their “School Administration” page on MaxPreps.

3. How do I get started? Coaches and Athletic Directors can register here by simply entering their email and following the prompts. If you are already a Max-Preps member, simply login in the top right corner using your current credentials.

4. Does MaxPreps have an app? Yes, the MaxPreps App allows coaches to update a score on their phone after the game. Coaches can also manage their schedule, stats, and roster. The free app can be downloaded by ADs, coaches, athletes, and parents from the [iTunes app store](#) and the [Google Play store](#).

5. Is MaxPreps compatible with other stat programs? Yes! In addition to MaxPreps’ own mobile, tablet, and desktop tools, MaxPreps is compatible with over 80 different stat companies across multiple sports. HUDL and GameChanger are both MaxPreps Partners. [Click here to see MaxPreps’ stat partners](#).

6. Can coaches allow a team statistician or assistant coach to help manage their team information? Yes! Once the coach has access to their team page, they can give other individuals access to their page to help keep their team information accurate and up-to-date. Fans, parents, communities, college athletic departments, and media outlets rely on this information.

7. Can I send my information to the media after each game? Yes, after scores and/or statistics are entered into MaxPreps, coaches may send that information to multiple media outlets at the same time. [Click here for instructions](#) on how to send boxscores and season statistics to media.

8. How can fans participate with their teams? Parents, fans, and/or team personnel can [provide live scoring updates](#) on their mobile devices during the game and post pictures, video

and chat with others. All scores/updates will be available statewide on the IHSA Scoreboards and sent to those who follow the team.

9. Who can I contact with additional questions? Coaches and ADs may contact MaxPreps state representative Eric Frantz at efrantz@maxpreps.com, or may direct questions to MaxPreps coach support

at support@maxpreps.com, or 800-329-7324 x1.

MaxPreps also has a support website at support.maxpreps.com that can help answer specific questions such as how to enter scores, schedules, rosters, and stats, how to upload a team photo, how to sync with stat partners, etc.

MaxPreps and the IHSA are happy to provide this great partnership for member schools, coaches, student-athletes, and communities.

Thank you for your important role in making this partnership a success!

It is the responsibility of each tournament manager to:

- Submit the final score of each contest you host.
- Submit the final score as soon as possible after the conclusion of each contest.

For more information, check out the ScoreZone page at www.ihsa.org/scores

Interactive ScoreZone means live updates!

Submitting scores online means being able to submit scores during the contest. Imagine being able to track scores from dozens of hot games around the state — as they happen. The technology is here. All we need now is your help.

How to Submit "Live Updates"

1. Log on to the IHSA Schools Center and find the contest you want to report (as outlined above).
2. Submit the score and the status of the contest (the inning, or the time remaining in the quarter or the half).
3. Submit the score as often as you like (including, of course, the final score).

Think it's a great idea, but need help? Remember, you can give the ScoreZone password to a trusted student or adult. The ScoreZone password gives access only to the ScoreZone area of the Schools Center. Live updates can be posted from the site of the contest, or even from home while listening to the radio.

No obligation: You are not required to submit "live updates" — but you just might want to!

The IHSA celebrated the 50th anniversary of Title IX (9) throughout the 2021-22 school year. This landmark law has led to a movement here in Illinois, where more than 140,000 female athletes now compete annually in 18 IHSA sports. Despite all the strides we have made, we still lack of female coaches and officials in the high school ranks. Consider getting involved as a coach or official by visiting IHSA.org.

3. SPORTSMANSHIP/SAFETY

General Information

**IHSA Manual for
Schools & Managers**

Emergency Action Plan (EAP)

In accordance with By-law 2.150, a school shall have on file for each student that participates (including practice) in interscholastic athletics a certificate of physical fitness issued by a licensed physician, physician's assistant or nurse practitioner as set forth in the Illinois State Statutes not more than 395 days preceding any date of participation in any such practice, contest or activity. As this By-law addresses pre-participation certification only, there is not a guideline or By-law in place to address release to interscholastic activity following an injury, with the exception of head injury/concussion. With the understanding that schools throughout the state have different needs and services available to them, this document was produced to provide guidelines on an athlete's return to activity following an injury.

Each school should have a written Emergency Action Plan (EAP) in place to address medical emergencies among athletes, staff, officials, and spectators, regardless of severity, occurring during a practice or competition. The plan should also address severe weather, fire, electrical failure, bomb threat, criminal behavior, or other possible emergencies. This plan should be developed to address the unique needs of the individual sport and venue.

EAP's should consist of the following components:

- Personnel
- Communication
- Equipment
- Emergency Medical Care
- Player Medical Information
- Game-day Responsibilities (includes appropriate sideline preparedness)
- Catastrophic Incident Plan

While each school's sports medicine/medical service needs and availability are different, guidelines should also be developed to assist the coaching staff on what injuries should be allowed to return to competition without a medical release. It is not practical to identify every situation or injury; however the following guidelines should assist the school/coaching staff on determining if the athlete should be allowed to return to activity without a release.

1. No swelling or deformity.
2. No headache, nausea, blurred vision, tingling, numbness or sensory changes.
3. Symmetrical (equal to the other side) joint range on motion and strength.
4. Ability to bear weight, without a limp, if injury occurs to the lower body.
5. Ability to complete full functional sporting activities without compensation.

Please remember that the majority of high school athletes are a minor. If there is a question as to their injury and ability to participate, the parents/guardian should be consulted.

Athletes that are unable to meet the above criteria should be encouraged to seek medical treatment prior to return to inter-scholastic activity. Those athletes that seek medical treatment should be required to provide a written medical release indicating their ability to participate. Without obtaining this release, the school may assume legal liability if the athlete is allowed to participate in activities not permitted by their medical provider.

A proper plan establishes accountability, should be comprehensive, yet flexible, practical, and easily understood. The written EAP must be revised, approved, distributed, and should be rehearsed regularly prior to every athletic season. The athletic department, administration, and sports medicine team share the responsibility to establish, practice, and execute the EAP.

A sample venue-specific is included as a part of this document, which was developed from portions of the third and fourth editions of National Federation of State High School Associations Sports Medicine Handbook. Persons interested in purchasing this handbook can do so at the following location: <http://www.nfhs.org/resources/publications/>

IHSA Severe Weather Safety Guidelines

To be used during any IHSA state series contest

When thunder is heard, or a cloud-to-ground lightning bolt is seen, the thunderstorm is close enough to strike your location with lightning. Take shelter immediately.

Lightning is one of the most consistent and underrated causes of weather-related deaths or injury in the United States. Nearly all lightning-related injuries occur between the months of May and September and between the hours of 10:00 a.m. and 7:00 p.m. Therefore, the greatest concern for injuries in an outdoor contest appears to be during that time, though it can happen any time of year.

It is essential that local managers, competing schools, and contest officials establish dialogue in advance of contests or events to ensure that all involved are aware of what the plan will be in determining whether or when to suspend play. Local managers are encouraged to share their plan with competing schools and assigned contest officials prior to the start of the tournament/event.

If competing schools have portable devices they will be bringing to a contest/event and/or have specific policy or directions from their administration that they must follow, the school must communicate those to the tournament manager. Tournament managers must know the policies of each school assigned to their tournament or event prior to its start.

PROACTIVE PLANNING

- 1) Assign staff to monitor local weather conditions before and during practices and contests
- 2) Develop an evacuation plan, including identification of appropriate nearby safer areas and determine the amount of time needed to get everyone to a designated safer area:
 - a. A designated safer place is a substantial building with plumbing and wiring where people live or work, such as a school, gymnasium or library. An alternate safer place from the threat of lightning is a fully enclosed (not convertible or soft top) metal car or school bus.
- 3) Develop criteria for suspension and resumption of play:
 - a. When thunder is heard, or lightning is seen*, the leading edge of the thunderstorm is close enough to strike your location with lightning. Suspend play for at least 30 minutes and vacate the outdoor activity to the previously designated safer location immediately.
 - b. 30 minutes rule. Once play has been suspended, wait at least 30 minutes after the last thunder is heard or lightning is witnessed* prior to resuming play.
 - c. Any subsequent thunder or lightning* after the beginning of the 30-minute count will reset the clock and another 30-minute count should begin.
 - d. When lightning-detection devices or mobile phone apps are available, this technology could be used to assist in making a decision to suspend play if a lightning strike is noted to be within 10 miles of the event location. However, you should never depend on the reliability of these devices and, thus, hearing thunder or seeing lightning* should always take precedence over information from a mobile app or lightning-detection device.
*- At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and the flashes are low on the horizon, the storm may not pose a threat. Independently verified lightning detection information would help eliminate any uncertainty.
- 4) Review the lightning safety policy annually with all administrators, coaches and game personnel and train all personnel.
- 5) Inform student-athletes and their parents of the lightning policy at start of the season.

EVACUATION PLAN

Safe Areas: All personnel, athletes and spectators should be clearly informed of available safe structures or shelters in the event a thunderstorm approaches. A safe structure is any fully enclosed building frequently used by people. In absence of that – athletes and spectators should go to any vehicle with a hard metal roof. Roll up the windows and do not touch the sides of the vehicle. If no safe structure or vehicle is available, find a thick grove of small trees surrounded by taller trees or a dry ditch. Assume a crouched position on the ground with only the balls of your feet touching the ground. Wrap your arms around your knees and lower your head. Minimize contact to the ground since lightning often travels through the ground.

Avoid: Tall trees or objects like light poles or flagpoles, individual trees, standing pools of water and open fields. Also avoid being the highest object on the field. Do not take shelter under trees. Avoid bathrooms if another building is available, and do not use a land-line telephone. A cellular phone or portable phone is a safe alternative if in a secure shelter or vehicle.

Resuming Activity: The NSSL (National Severe Storms Laboratory) recommends that everyone should wait at least 30 minutes after the last flash of lightning or sound of thunder before returning to the field or activity.

Wet Bulb Globe Temperature [®]

These requirements represent minimum standards that IHSA member schools must follow for all athletic activities and competitions, both outdoors and indoor facilities that are not airconditioned. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will also be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. Decisions to suspend and resume activity will be in accordance with these guidelines.

Pre-Practice Preparation:

1. Thirty minutes prior to the start of an activity, and minimally every 30 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is required.
- a. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.
2. Provide cooling stations such as shade, ice towels, misting fans, etc. for before, during, and after activity.
3. Provide ample amounts of water. This means water should always be available and athletes should be able to take in as much water as they desire.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

Cat 2	Activity Guidelines
< 79.9	Normal Activities – Provide at least three separate rest breaks each hour with a minimum duration of 3 min each during the workout.
80.0 - 84.5	Use discretion for intense or prolonged exercise; Provide at least three separate rest breaks each hour with a minimum duration of 5 min each. Cold Water Immersion must be available. (see below)
84.6- 87.5	Maximum practice time is 2 h. Contests may conclude if the temperature moves to orange mid-game with the required breaks provided. No new contests may be started if the temperature is in this range. <u>For Football:</u> players are restricted to helmet, shoulder pads, and shorts during practice. If the WBGT rises to this level during practice, players may continue to work out wearing football pants without changing to shorts. <u>For All Sports:</u> There must be 20 min of rest breaks distributed throughout each hour of practice. Cold Water Immersion must be available. (see below)
87.6 - 89.9	Maximum practice time is 1 h. <u>For Football:</u> No protective equipment may be worn during practice, and there may be no conditioning activities. <u>For All Sports:</u> There must be 20 min of rest breaks distributed throughout the hour of practice. Cold Water Immersion must be available. (see below) Consider postponing games or practices until a cooler time of day.

Treatment of Exertional Heat Stroke and Cold-Water Immersion:

In the event of potential Exertional Heat Stroke (EHS), each school participating in interscholastic sports shall be properly prepared and equipped to activate EMS and initiate rapid whole-body cooling using an evidence-based cooling modality. The current best practice for the treatment of exertional heat stroke is rapid whole-body cooling via Cold Water Immersion (CWI) on-site followed by transport to advanced medical care (Cool first transport second). If whole-body CWI is not readily available, alternate evidence-based whole-body cooling techniques can be utilized (e.g. TACO method). The best practices shall be carried out by a licensed athletic trainer, designated healthcare provider, or EMS provider. In the event that these medical providers are not available and heat illness is suspected, cooling should be initiated until advanced medical personnel arrives.

The cooling modality shall be ready for immediate use when WBGT is at or above 80F. At WBGT temperatures below 80F the cooling modality should be readily available.

Cooling Methods Due to Heat Related Illness

Exertional heat stroke (EHS) is relatively uncommon among exercise associated medical conditions but is a frequent cause of exercise related death. The majority of evidence shows that early institution of body cooling is the most effective method of decreasing mortality in EHS. The following contains recommendations regarding the methods of body cooling, including tubs, ice bags, iced towels (towels with water that have been frozen) water, fans, and shade. The recommendations are classified as essential (foundational to the implementation of treatment, should have resources and personnel directed towards implementation), and desirable (important in maximal implementation, should have resources and personnel directed towards implementation as budget and resources allow). The recommendations are only guidelines, are not intended as a standard of care, and should not be considered as such. These guidelines should only be considered in the care of athletes who can be expected to be at risk of EHS due to the sport or the environmental situation of the activity. Sports especially at risk include football with and without equipment, soccer, and long distance track. Other sports and activities, such as cycling, golf, baseball, tennis, track and field, and band, may also be at risk due to long duration exposure to extreme environmental conditions.

It is essential that member schools and school administrators/officials:

- Establish a written plan coordinated with local EMS for emergency treatment of EHS that includes transport to a hospital and conduct drills in the implementation of the plan as practicable.
- Know how to assess environmental conditions and determine when extreme conditions exist.
- Identify a specific spot at the athletic facility that has shade.
- Have immediate access to ice and bags to contain ice.
- Have access to water, and provide water breaks as outlined in the IHSA Managing Heat and Humidity Policy.
- Know the most effective sites for application of ice to the body.
- Obtain and use, when environmental conditions are determined to be extreme, a tub or pool, filled with water and ice before activity begins, to be used in body immersion for maximal cooling, and have personnel trained in this technique.

It is desirable that member schools and school administrators/officials:

- Have a certified athletic trainer (ATC) on staff, as budget and resources allow, to develop and implement these guidelines.
- Have immediate access to water.
- Provide shade breaks.
- Provide fans when environmental conditions are determined to be extreme.
- Have close access to an air conditioned room.
- Have access to and use iced towels that can be rotated to appropriate areas of the body, including the axilla, groin, and back of the neck.

IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions

“Any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest and shall not return to play until cleared by an appropriate health care professional.”

The above language, which first appeared in all National Federation sports rule books for the 2010-11 school term, reflects a strengthening of rules regarding the safety of athletes suspected of having a concussion, but not a revision in primary responsibilities in these areas. Previous rules required officials to remove any athlete from play who was “unconscious or apparently unconscious.” This revised language reflects an increasing focus on safety, given that the vast majority of concussions do not involve a loss of consciousness. However, the revised language does not create a duty that officials are expected to perform a medical diagnosis. The change in rule simply calls for officials to be cognizant of athletes who display signs, symptoms, or behaviors of a concussion from the lists below and remove them from play.

NOTE: The persons who should be alert for such signs, symptoms, or behaviors consistent with a concussion in an athlete include appropriate health-care professionals, coaches, officials, parents, teammates, and, if conscious, the athlete him/herself.

Definition of a Concussion

A concussion is a traumatic brain injury that interferes with normal brain function. An athlete does not have to lose consciousness (be “knocked out”) to have suffered a concussion.

Behavior or signs observed indicative of a possible concussion

- Loss of consciousness
- Appears dazed or stunned
- Appears confused
- Forgets plays
- Unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Shows behavior or personality changes
- Can’t recall events prior to or after the injury

Symptoms reported by a player indicative of a possible concussion

- Headache
- Nausea
- Balance problems or dizziness
- Double or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy or groggy
- Concentration or memory problems
- Confusion

This protocol is intended to provide the mechanics to follow during the course of contests/matches/events when an athlete sustains an apparent concussion. For the purposes of this policy, appropriate health care professionals are defined as: physicians licensed to practice medicine in all its branches in Illinois and certified athletic trainers.

1. During the pre-game conference of coaches and officials, the official shall remind the head coaches that a school-approved appropriate health care professional (who meets the description above) will need to clear for return to play any athlete removed from a contest for an apparent head injury.
2. The officials will have no role in determining concussion other than the obvious situation where a player is unconscious or apparently unconscious as is provided for under the previous rule. Officials will merely point out to a coach that a player is apparently injured and advise the coach that the player should be examined by the school-approved health care provider.
3. If it is confirmed by the school’s approved health care professional that the student did not sustain a concussion, the head coach may so advise the officials during an appropriate stoppage of play and the athlete may re-enter competition pursuant to the contest rules.
4. Otherwise, if an athlete cannot be cleared to return to play by a school-approved health care professional as defined in this protocol, that athlete may not be returned to competition that day and is then subject to his or her school’s Return to Play (RTP) protocols before the student-athlete can return to practice or competition.
5. Following the contest, a Special Report shall be filed by the contest official(s) with the IHSA Office through the Officials Center.
6. In cases where an assigned IHSA state finals event medical professional is present, his/her decision to not allow an athlete to return to competition may not be over-ruled.

Additional information regarding concussion has been made available to IHSA member schools and licensed officials and can be accessed on the IHSA Sports Medicine website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

Concussion Information

Return to Play (RTP) and Return to Learn (RTL)

Background: With the start of the 2010-11 school term, the National Federation of State High School Associations (NFHS) implemented a new national playing rule regarding potential head injuries. The rule requires “any player who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the game and shall not return to play until cleared by an appropriate health care professional.” In applying that rule in Illinois, it has been determined that only certified athletic trainers, advanced practice nurses (APN), physician’s assistants (PA) and physicians licensed to practice medicine in all its branches in Illinois can clear an athlete to return to play the day of a contest in which the athlete has been removed from the contest for a possible head injury.

In 2015, the Illinois General Assembly passed the Youth Sports Concussion Safety Act, and this legislation, among other items, required schools to develop Concussion Oversight Teams and create Return to Play (RTP) and Return to Learn (RTL) protocols that student-athletes must meet prior to their full return to athletic or classroom activity

Mandatory Concussion Education

Required concussion education for all athletic coaches and marching band directors is another component of the Youth Sports Concussion Safety Act passed by the Illinois General Assembly in the fall of 2015.

The IHSA program includes two video presentations and other supplementary materials that ALL high school athletic coaches, marching band directors, and Concussion Oversight Team members need to review prior to taking a required exam over the curriculum. Individuals will be required to demonstrate proficiency on the exam by scoring at least 80% in order to serve as an athletic coach or marching band director at an IHSA member school.

The program offers training in the subject matter of concussions, including evaluation, prevention, symptoms, risks, and long-term effects. Coaches will be able to access the program after logging into the IHSA Schools Center and clicking on the “CON” tab, which will be located under the ‘Departments’ heading on the Schools Center homepage.

For more information on the Youth Sports Concussion Safety Act, including specific requirements of the law and other concussion education providers besides IHSA, individuals can access Sports Medicine resources on the IHSA website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

For those first adopters of this training, new curriculum from the IHSA/IESA is expected to be released in March of 2018 so those whose training will expire in 2018 will be able to remain in compliance with the law.

School's Responsibility: Sportsmanship

School's Responsibility to an Official Prior To The Season

1. Send a reminder card or email to the officials after you have them scheduled.
2. Reminder should include date of contest, time, level, location and sport.
Even though many schools and conferences have assignment chairpersons, sending a reminder is highly recommended. When an official does not show, people in your community won't know who the assignment chairperson is, but they do know the athletic director. Avoid embarrassment.
3. Have a standard wage scale set for your different sports and levels and a method in place to raise the pay periodically.
4. If possible, let the working officials know who their partner(s) will be.
5. Hire police and security along with medical assistant or athletic trainer coverage for events whenever possible.
6. Set a policy with your school board on fan, coach and player behavior.
7. Make sure all officials have a contract that is signed by your school—preferably by the principal or IHSA Official Representative.

School's Responsibility to an Official Prior To The Contest

1. Prior to the contest, provide the officials with directions and inform them of any special activities that might be occurring (i.e., Homecoming, Senior Night, etc.)
2. Give the official a number they can call in case of an emergency or postponement due to weather.
3. Have competent workers assigned at all contests (scorers, announcers, chain crew, etc.). These people are of great assistance to the official during the contest.
4. Have a host assigned to meet the officials as they arrive. The host should do the following for the officials:
 - a. Provide a reserved parking space.
 - b. Meet officials and take them to the dressing room.
 - c. Have refreshments available for halftime and postgame.
 - d. Ask for any additional needs.
 - e. Introduce the officials to those game workers pertinent to the contest (i.e., scorer, announcer, chain gang, etc.).
 - f. Get the proper pronunciation of officials' names so they are correct when given by the public address announcer.
5. Athletic director should discuss with the officials any special events, conference rules, national anthem time, etc. that would affect the game.
6. Provide the officials with the name of the adult supervisor for that contest and where that person can be found in the event a challenging situation should occur.
7. Make officials aware of location of an athletic trainer or other first responders during the contest. Have a doctor on site when possible (especially at football contests).
8. Make sure all bench personnel are properly attired.
9. Do a check on game scoreboards and lighting systems prior to the game or contest.
10. Make sure the playing area is properly marked and meets National Federation guidelines for that contest.
11. Provide appropriate secured dressing area and hot water showering facilities.

School's Responsibility to an Official During The Contest

1. Insist coaches display good sportsmanship and are proper examples for your players and crowd.
2. Have your public address announcer or cheerleader read the IHSA sportsmanship statement and remain unbiased during contest.
3. Make sure the event supervisor understands the duties and responsibilities pertinent to that contest.
4. Make sure the playing area is maintained during halftime of each contest. For wrestling, make sure the mat is properly cleaned and washed.
5. Help with adverse weather conditions; monitor accordingly.
6. Make sure proper crowd control is visible and in place. Good administrative control can prevent difficult situations.
7. Observe the crowd during the contest and prevent any disturbances that may occur.
8. Work with the official during the game regarding crowd control.
9. Retrieve the game ball at the end of the contest.
10. Escort the officials back to the dressing room at halftime and at the conclusion of the contest.

School's Responsibility to an Official After The Contest

1. Escort the officials safely back to the dressing room and parking lot.
2. Do not allow unauthorized persons in the dressing room after the game. This includes coaches.
3. Have refreshments available for the officials after the contest.
4. Be sure to thank the officials for their time and effort, regardless of the outcome of the game.
5. Make sure arrangements for paying the officials have been completed. It is preferable to pay the official the day of contest.
6. Ensure that officials are not confronted by anyone after the contest.

STUDENT MEDIA CREDENTIALS FOR PARTICIPATING SCHOOLS

Congratulations on qualifying for an IHSAA state final in a team sport. In order to provide the best possible coverage of this event for your school newspaper, yearbook and AV club, etc. you are entitled to have up to three students receive credentials to cover this event as official media members. In the event that you have less than three students, an adult sponsor may be included on this list. To apply for student media credentials, please have your Athletic Director or an individual involved with the aforementioned programs email Matt Troha (mtroha@ihsa.org) at the IHSAA with the following information:

- 1) The names of individuals attending
- 2) Whether they are students or adults
- 3) If the attending individuals will serve as reporters, photographers, videographers, etc.

Student media who are registering for credentials are expected to maintain a level of professionalism while covering this event. That includes no cheering while in the press box or game coverage area.

Proper attire is also required. Wearing school shirts and colors is acceptable, but students wearing face paint, costumes, carrying props, etc. will be required to change before receiving credential clearance.

The individual applying for student media credentials will receive specific information on credential pick-up and media regulations at the event via email in the days leading up to the state final.

Please note that student media credentials are only available for state final events in team sports. Due to the sheer volume of schools who qualify in individual sports, our press facilities would be unable to accommodate student media from all participating schools in individual sports. Student media are also welcome to cover IHSAA state final activities. Credentials are not required for these events, but please have your students check-in with state final personnel upon arrival for media coverage regulations.

VIDEO TAPING STATE FINALS FOR COACH FILM BREAKDOWN

Each school will be eligible to receive a pass for an individual attending the state final event to shoot game film that is for the sole purpose of being used by the coaching staff for postgame breakdown. Passes for videographers shooting highlight videos, documentaries, etc. should be included in student media application reference above. Additional passes for videotaping purposes will need to come from the allotment of state final passes given to school/head coach at or prior to the state final event.

To apply for a credential to shoot video, please have your Athletic Director email Matt Troha (mtroha@ihsa.org) at the IHSAA with the name of the individual who will be taping and whether they are an adult or a student.

Please contact Matt Troha (309-6336-377) at the IHSAA or any questions related to this document.

IHSA Tournament Managers/Hosts,

The advent of greater broadcasting technology has brought about many new potential internet broadcasting partners who may contact you seeking to broadcast the postseason IHSA events you host.

The IHSA's official broadcast partner, the NFHS Network, has the first right to exclusively broadcast any postseason IHSA event. If your school streams on the NFHS Network, via either the School Broadcast Program or a fixed Pixellot camera system in your gym or stadium, then you are encouraged to exclusively stream any/all postseason games you host. Additionally, if an NFHS Network school competing in the postseason tournament you are hosting would like to broadcast on the NFHS Network, they should be given exclusivity to do so as well. The NFHS Network also partners with several third party media companies, who should be granted the same exclusivity to broadcast as a school.

If you as the postseason host are not an NFHS Network school, and no competing school contacts you about broadcasting on the NFHS Network, at that point, a third party can be granted the rights to broadcast the event on the internet. In this instance, a broadcast rights fee is due to the IHSA. The internet streaming fee schedule is listed below. Potential broadcasters should be directed to complete and submit the IHSA Broadcast Application form from the IHSA website (TV fee schedule also located in this application), which can be found here:

www.ihssa.org/documents/media/Video%20Ap.pdf

If at any time you ever have questions on the fees or any other matters related to broadcasting or media, please email/call Matt Troha at the IHSA office (mtroha@ihssa.org or 309-663-6377).

Unmanned Aerial Vehicle (Drone) Policy

For IHSA Tournaments

Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.
