Input links for Round 1 games

If you have time at the start of each round, please help us by inputting the URLs of each game being played. This will be easier to do if you use a mouse with your device.

Click on the name of each player to bring up his or her Lichess history, then scroll down the page to find this round's game (it should be at the top of the list). Right-click on the game, select "Copy link address", return to this page, and paste it into the proper field. After you have input all the links, you must click "Save changes". Thanks!
