

2025 COMPETITIVE CHEER PERFORMANCE ORDER AT STATE FINALS

A team's performance order in the state final preliminary round can be determined as soon as the sectional results are official. As per the Competitive Cheer terms and conditions, the following formula is used to determine the performance order for the state final:

1. Each sectional is randomly assigned a letter code (A to E) by the IHSA office.
2. Each team's performance order within a particular division is determined by the sectional code and the place the team won at the sectional tournament, according to the table below.
3. In case of a tie for 5th place at a sectional, an additional entry will be added at the end of the order.
4. In case of a tie for any other place at a sectional, the teams will perform in the opposite order in the state finals. For example, at sectional A, two teams tie for 2nd (and 3rd) place. In the chart, the order assigned to A-2 is #14. The order assigned to A-3 is #18. Whichever team went first in the sectional is assigned order #18. The other team is assigned order #14.
