Football Playoff Game Statistical Summary

Illinois High School Association
2715 McGraw Dr., Bloomington, IL 61704
Phone: 309-663-6377
Fax: 309-663-7479

The fields in this form will accept a cursor and can be filled out prior to printing.

For News Media, Records, Competing Teams
Playoff Host Schools MUST Provide Statistics

In order to maintain our uniform system of compiling and distributing Football Playoff Game statistics, to be used for purposes of maintaining records (All-Time, individual class and others) — as well as provide the news media covering playoff games with consistent, factual material for use in reports of the game(s) — managers of each game will compile and distribute a completed, photocopied or duplicated set of Final Statistics (individual, team and scoring) immediately after the game at their site.

The number of copies to be produced will vary according to the intensity of news media coverage. In general, the coaching staff of each of the two competing schools should be allowed five (5) complete sets, the school must be email the IHSA one (1) complete set, and each member of the news media covering the game would be allowed the opportunity to obtain two (2) complete sets.

All playoff game managers will be responsible to provide a "STATS CREW" to compile the necessary team and individual statistics during the course of the game, to transfer that data to the attached forms, to produce necessary numbers of each page at the game site immediately after the game, to distribute the complete sets to the proper personnel and to email one (1) set to the IHSA Office (twood@ihsa.org)

Principals are urged to establish their schools "official" statisticians crew—which may be made up of faculty members who have a knack for such detail or the local sports editor and/or member(s) of his staff—before the start of the regular season, and let the crew gain experience and acquire a certain degree of speed in compiling and producing what will be required of them if your school qualifies for the playoffs. The "dry runs" will be beneficial to the crew, and can provide data which may be used by your school's coaching staff during the course of the season.

The forms to be used in the production process are labeled "Final Team Football Statistics," "Final Individual Statistics," and "Scoring Summary." Team statistics are the totals of all individual categories by players from Team A (visiting team) and Team B (home team). Individual statistics are the totals of an individual player in each of the different categories. Addition of all individual totals in a particular category for a team should equal the figure printed as the team's total in that category. The Scoring Summary is the way all points are scored in order.

It is imperative that the information be totaled, transcribed on the master and photocopied as soon as possible after the conclusion of the game.

This singular set of Final Statistics provided by the Playoff Game Manager allows uniform reporting of the game, as well as making definite the date, which may or may not be involved in IHSA Football Playoff Records. The material provided by the Playoff Game management is the statistics "official" set for that game. If a playoff game manager is responsible for calling various newspapers or other media throughout the state after the game to provide data about the game at his site, duplication allows more than one person to make necessary calls, thus providing essential information more quickly.

Football Scoring Summary

Date: _____ **Round:** ____

Site : _____ **Attendance:** _____ **Class:** ____

Visitor (record): _____ **VS. Home (record):** _____ **Game No:** ____

Score by Quarters	1	2	3	4	OT	OT	Final Score

Quarter	Time Left	Type of Scoring Play (List in order each occurs)		
		List School -- First and last name of scorer on first line of play (List point after touchdown in second line of play in parentheses)		
1st	*11:49*	*Bloomington (H.S.)-- Kurt Gibson 95 yd. run* *(Ron McGraw pass from Matt Troha 2 PAT)*	*8*	*0*
